

Sitra – International Technical & Facility Manager

As an **International Technical & Facility Manager**, you take the lead in managing and optimizing our service network. You work closely with the COO, procurement, our in-house garage, and the driver control team to ensure the continuity of our fleet.

- You develop and implement a clear strategy for the maintenance and service network, ensuring optimal collaboration with external partners and our internal workshops.
- You prepare a consolidated budget and manage a KPI dashboard to continuously monitor and improve performance.
- From our site in Ypres, you lead the garage and site operations while providing functional oversight of external service points.
- You are responsible for monitoring fleet performance and ensuring its continuity.
- You stay up to date with market trends and supplier capabilities, anticipating changes where necessary.

What do we expect from you?

- Master's degree level
- You have at least 10 years of technical experience in a leadership role
- You are able to communicate in multiple languages (NL – FR – ENG)
- You are willing to travel regularly to external service points
- You have the necessary technical affinity and strategic thinking ability
- You are a team player who also possesses the required independence

Our advantages

We offer you the opportunity to further develop yourself within international facility management. In addition to an attractive salary package including a company car, we fully invest in your growth with various external training programs. And that's not all: every month, we organize fun team activities, and you have access to our in-house gym.
